

# CANCER INSURANCE

Underwritten by Transamerica Life Insurance Company

With cancer insurance, you're directly paid specific benefit amounts for out-of-pocket expenses that result from the diagnosis and treatment of cancer. A diagnosis can't be easy to hear, but your policy can help lighten your financial burden.

**In the U.S., 40% of men and 38% of women have a lifetime probability of being diagnosed with cancer.<sup>1</sup>**

## MEET STEVE

Steve enjoys nothing more than kayaking any chance he gets and feels grateful to be in good health. During an annual checkup, his doctor noticed something suspicious. A few tests later, Steve was diagnosed with a form of prostate cancer and immediately started treatment. Thankfully, Steve bought cancer insurance through his employer a couple of years prior to his diagnosis.

## AN EXAMPLE OF HOW CANCER INSURANCE WORKS

Steve receives care after diagnosis.

Steve's care provider bills him for what major medical doesn't cover.

Steve files his cancer insurance claim.

Transamerica deposits benefit payment directly into his account, and he used it to pay his part of the medical bills.
